## LANGUAGES

English (b2)

Russian (native)

## EXPERIENCE

### • REQUEST DESIGN (05.01.2023 - 5.01.2024)

Development using React framework and working with layout for frameworkless projects. Interacted with designers, helped with the backend. Wrote general documentation for the technologies used, held calls once a week, trained newcomers.

## SKILL

- React / React-hooks
- Redux / Redux Toolkit / RTK Query
- JS / TS
- Node / Express
- MongoDB
- Bootstrap / Antd / Tailwind
- HTTP, REST API
- HTML / CSS / SASS
- Figma
- GIT
- Webpack / gulp

## PROJECTS

To read a detailed description of the functionality, technology stack for a specific application, follow the github link.

### • MERN SHOP

Fullstack app, tech store with user and admin interface on the MERN stack.

Github: <https://github.com/jdays2/myMernStore>

Deploy: <https://study-mer-nstore-8exs.vercel.app/>

### • TASK SCHEDULER

Fullstack app, planner with tables, cards and other features to keep track of your work and personal schedule.

Github: <https://github.com/jdays2/myAdvancedTodo>
